

# Kiiltomelt EVO 35

Soft hot melt adhesive for paper bag windows and labelling.

- Good nozzle properties
- Excellent cold resistance
- Suitable to be used in food packages
- Good adhesion also to challenging materials

## AREA OF APPLICATION

Kiiltomelt EVO 35 is a fast bonding hot melt adhesive ideal for hard to bond materials, such as paper bag PP and PS windows. Thanks to its good cold resistance properties, the adhesive develops good bond strength both in room temperature and below zero temperatures. The adhesive has good thermal stability. All components of the adhesive comply with the food packaging regulation FDA 175.105 as well as (EU) 10/2011 regulation on plastic materials.

## INSTRUCTIONS FOR USE

Suitable for nozzle application.

## ADDITIONAL INFORMATION

The information given in this product data sheet is based on our tests and our practical knowledge. The technical data is defined in standard conditions. Variations in local working conditions will affect the product performance and result. The result is also strongly affected by working methods. We guarantee the high quality of our products according to our Quality Management System. No liability can be accepted from incorrect use of the product or prevailing conditions, over which we have no control. Thus, we cannot be held responsible for the final result. The user of the product must test product's suitability to the intended application.

## ENVIRONMENT AND SAFETY

Avoid unnecessary skin contact and exposure with the fresh product, use safety gloves. Refer to the product specific MSDS. Go to [www.kiilto.com](http://www.kiilto.com) for information on product and package disposal.

COLORS	light
SOFTENING POINT	98 °C (DIN 52011)
VISCOSITY	1500 mPas, 160 °C, 100 s <sup>-1</sup>
OPEN TIME	long
APPLICATION TEMPERATURE	150–180 °C
PACKAGE SIZES	10 kg
