

Kiiltomelt EVO 25

Kiiltomelt EVO 25 is a polyolefin-based hot melt adhesive for the packaging industry.

- Good thermal stability
- Suitable for food packaging
- Ideal for nozzle dispensing
- Very fast
- Odourless and colourless

AREA OF APPLICATION

Kiiltomelt EVO 25 is a very fast-bonding hot melt adhesive for the food packaging industry. Its formula is optimised to nozzle dispensing. Adhesive has no colour or odour. Good thermal stability. Kiiltomelt EVO 25 is suitable for gluing paper, corrugated board, cardboard and PE-coated cardboard in the food industry. All components of the adhesive comply with the food packaging regulation FDA 175.105.

INSTRUCTIONS FOR USE

Suitable application methods are nozzle, disc and transfer arm.

ADDITIONAL INFORMATION

The information given in this product data sheet is based on our tests and our practical knowledge. The technical data is defined in standard conditions. Variations in local working conditions will affect the product performance and result. The result is also strongly affected by working methods. We guarantee the high quality of our products according to our Quality Management System. No liability can be accepted from incorrect use of the product or prevailing conditions, over which we have no control. Thus, we cannot be held responsible for the final result. The user of the product must test product's suitability to the intended application.

ENVIRONMENT AND SAFETY

Avoid unnecessary skin contact and exposure with the fresh product, use safety gloves. Refer to material safety data sheet. For information on product and package disposal, visit www.kiilto.com.

COLORS	White
SOFTENING POINT	110 °C (DIN 52011)
VISCOSITY	1,400 mPas, 160 °C, 100 s ⁻¹
OPEN TIME	Short
APPLICATION TEMPERATURE	150–180 °C
