

Sitol 4835

KIILTO INDUSTRIAL ADHESIVES AND SEALANTS

Sitol 4835 is a modified starch-based adhesive for paper bag bottom gluing.

- Suitable for food product packaging

AREA OF APPLICATION

Sitol 4835 is suitable for gluing shopping bags. The adhesive is easy to clean and has good roller properties.

INSTRUCTIONS FOR USE

Application machinery and instruments can be cleaned with water before the adhesive gets dry. Dried adhesive can be removed mechanically and finished with hot water.

ADDITIONAL INFORMATION

The information given in this product data sheet is based on our tests and our practical knowledge. The technical data is defined in standard conditions. Variations in local working conditions and methods will affect the product performance and result. We guarantee the high quality of our products according to our Quality Management System. No liability can be accepted from incorrect use of the product or prevailing conditions, over which we have no control. Thus, we cannot be held responsible for the final result. The user of the product must test product's suitability to the intended application.

ENVIRONMENT AND SAFETY

Avoid unnecessary skin contact with and exposure to the fresh product: use safety gloves. Refer to material safety data sheet. For information on product and package disposal, visit www.kiilto.com.

TYPE/BINDER	Modified starch adhesive
DENSITY/SPECIFIC WEIGHT	1,05 kg/dm ³ /20°C
pH	7
VISCOSITY	150 000 mPas (Brookfield Helibath TE/10, 20° C)
APPLICATION TEMPERATURE	+18...+25 °C
STORAGE	In unopened containers at +20 °C for 12 months. After prolonged storage, stir before use.
