

Kiiltomelt EVO 20

Kiiltomelt EVO 20 is a polyolefin-based, hot-melt adhesive for the packaging industry.

- Good thermal stability
- Suitable for use in food packages
- Lower adhesive consumption
- Very fast
- No odour, no colour

AREA OF APPLICATION

Kiiltomelt EVO 20 is an ultra fast binding, colourless and odourless hot-melt packaging adhesive suitable for the gluing of paper, corrugated board, cardboard and PE-coated cardboard, e.g. in the food industry. Less adhesive is needed as well as less instrument maintenance. The adhesive has good thermal stability. All components of the adhesive comply with items III, XXV and XXXVI of the BfR Recommendations on Food Contact Materials. All components of the adhesive comply with the food packaging regulation FDA 175.105.

INSTRUCTIONS FOR USE

Suitable application methods are by nozzle, disc and transfer arm.

ADDITIONAL INFORMATION

The information given in this product data sheet is based on our tests and our practical knowledge. The technical data is defined in standard conditions. Variations in local working conditions will affect the product performance and result. The result is also strongly affected by working methods. We guarantee the high quality of our products according to our Quality Management System. No liability can be accepted from incorrect use of the product or prevailing conditions, over which we have no control. Thus, we cannot be held responsible for the final result. The user of the product must test the product's suitability for the intended application.

ENVIRONMENT AND SAFETY

Avoid unnecessary skin contact with and exposure to the fresh product: use safety gloves. Refer to material safety data sheet. For information on product and package disposal, visit www.kiilto.com.

COLORS	white
SOFTENING POINT	110 °C (DIN 52011)
VISCOSITY	1,100 mPas, 160 °C, 100 s ⁻¹
OPEN TIME	short
APPLICATION TEMPERATURE	150 - 180 °C
PACKAGE SIZES	10 kg
STORAGE	In unopened containers, at max. +40 °C, for 36 months.
