

Kiiltomelt T 4096

Washable pressure sensitive hot melt adhesive for labeling PET bottles.

AREA OF APPLICATION

Pressure sensitive hot melt adhesive for gluing PP and paper labels on PE and PET bottles. Easy to wash off with alkaline water solution.

INSTRUCTIONS FOR USE

Packed in a plastic foil. The foil melts with the adhesive. Can be applied with a nozzle, disc or roller.

ADDITIONAL INFORMATION

The information given in this product data sheet is based on our tests and our practical knowledge. The technical data is defined in standard conditions. Variations in local working conditions will affect the product performance and result. The result is also strongly affected by working methods. We guarantee the high quality of our products according to our Quality Management System. No liability can be accepted from incorrect use of the product or prevailing conditions, over which we have no control. Thus, we cannot be held responsible for the final result. The user of the product must test product's suitability to the intended application.

ENVIRONMENT AND SAFETY

Avoid unnecessary skin contact with and exposure to the fresh product: use safety gloves. Refer to material safety data sheet. For information on product and package disposal, visit www.kiilto.com.
